EDUCATION

Kamla Nehru Institute Of Technology - Sultanpur

October 2023 - June 2027

Bachelor of Technology in Electrical Engineering , CGPA = 8.27

(Present)

TECHNICAL SKILLS

- **Programming Languages** : Java, Python
- **Frontend** : HTML, CSS, JavaScript, React.js, Redux, Next.js, Tailwind CSS, Bootstrap
- **Backend** : Node.js, Express.js, JWT, REST APIs, WebSockets
- **Database** : MySQL, MongoDB
- **Libraries** : Pandas, NumPy, Matplotlib
- **DevOps Tools** : Docker, Kubernetes, VS Code, Git, GitHub, Terminal, Postman, Vercel.
- **Core Subjects** : Data Structures and Algorithms, Computer Networks, DBMS, Operating Systems, OOPs.
- **Soft Skills** : Communication, Teamwork, Leadership

PROJECTS

AskAI

Feb'2026

- A real-time AI-powered chat application capable of understanding and responding to user queries using Natural Language Processing (NLP).
- Built scalable backend services using Node.js and Express.js with REST APIs and WebSocket-based real-time communication.
- Implemented secure authentication and session management using JWT.
- Managed chat history and user data using MongoDB and deployed the application using Vercel.

Investify - Where Wealth Grows

Oct'2025

- Developed a full-stack stock trading web application enabling users to simulate trading and manage investment portfolios.
- Implemented secure user authentication and session management to ensure data privacy and protection.
- Designed and integrated core features including buy/sell order functionality, portfolio tracking, and personalized watchlists.
- Developed RESTful APIs using Node.js and Express.js to handle trading operations and user data efficiently.

Pro-Rental:Property Rental Platform

Jan'2025

- Developed a full-stack property rental platform allowing users to list, manage, and explore rental properties.
- Implemented secure user authentication and review functionality to improve user experience and reliability.
- Utilized MongoDB Atlas for secure cloud-hosted database management of property listings and user profiles.
- Built backend services using Node.js and Express.js with Passport.js authentication middleware.

ACHIEVEMENTS

- Solved **350+** problems on **Leetcode** [↗](#)
- Achieved a peak contest rating of **1500+** on CodeChef, demonstrating strong problem-solving and competitive programming skills.

POSITION OF RESPONSIBILITY

- **Training and Placement Representative (TPR)** at Career Development Cell.
